LEADING LIGHT

Timothy Han, John Galliano's former design assistant, has launched a delicious range of 100% organic, soy wax candles that come in four different scents including our favorite "Lemongrass, Marjoram and Lavender", "Sage", "Lavender" and the enlightened "unscented". The soy wax ensures there are no carcinogens and no black soot emissions, making the candles health and earth friendly. Quintessentially members have an exclusive introductory offer on all candles. Timothy has teamed up with Bill Amberg to create a gorgeous leather travel case which retails for GBP 90. For more information please contact Quintessentially.
